

INTRODUCTION

Whether it be small scale crack repairs, or strengthening works to entire properties, we can provide a system to suit. Works can consist of simple resin repair works, to installation of HD Bow ties & Cem ties to bond floors and internal walls, to wall ties external walls to strengthen the property.

REPAIR OPTIONS

We offer the following options for Helifix repair works :

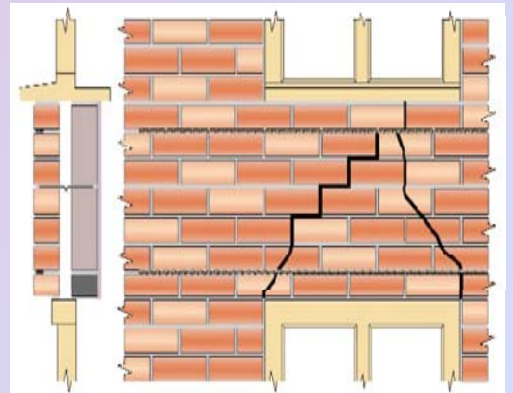

HD Bow Ties

Cem Ties

Helibar

Helibeam

Dry Fix and Retro Wall Ties

INSTALLATION

We are approved national installers for the Helifix systems. We can also provide a full design service to carry out the specification and therefore omit the need for a structural engineer to be employed. 10 year guarantee can also be provided for the works installed.

ADVANTAGES

- I) Reduces extent of rebuilding works, thus reducing contract periods
- II) Reduces labour and material costs
- III) Reduces costs for independent structural engineer
- IV) Could omit costs for un-necessary underpinning works that may have been specified
